

Hidden Maternity Project: baby hatch

Women in difficulty can entrust their babies, born without medical assistance and therefore in dangerous conditions, to the care of the medical staff without being seen and/or recognized, using the “*baby hatch*”.

The baby hatch is located in the box built into the perimeter wall of our hospital, in Via Monfalcone at the intersection with Via Corridoni.

Taking a baby to the “*baby hatch*” is not a crime: the baby will receive immediate assistance and the Hospital Social Services will be activated to declare the child eligible for adoption by families ready to welcome them.
